

IRELAND - CHEMICAL PRODUCTS - GB10/23 - SUPPLY OF CHEMICALS FRAMEWORK

18/2024

Contract or concession notice – standard regime

1. Buyer

1.1 *Buyer*

Official name: Bord na Móna PLC

Legal type of the buyer: Entity with special or exclusive rights

Activity of the contracting entity: Electricity-related activities

2. Procedure

2.1 *Procedure*

Title: GB10/23 - Supply of Chemicals Framework

Description: Expressions of interest are invited from suitably qualified Applicants interested in being considered for the supply of chemicals to Edenderry Power. The Contracting Entity intends to establish a single supplier Framework Agreement for the provision of: Lot 1 Sodium Bicarbonate. The Contracting Entity intends to establish a multi supplier Framework Agreement for the provision of: Lot 2 Limestone Lot 3 Sodium Hydroxide Caustic Soda Liquor 30 percent and Hydrochloric Acid 36 percent HCL Lot 4 Urea 40 percent Solution The Framework Agreement period will be for two years with the possibility to extend annually for up to 8 years. It is envisaged that the five highest ranked suitably qualified Applicants (subject to the quality of applications received) including ties will be shortlisted to proceed to the tender stage of the competition.

Procedure identifier: 1f030d6d-7d54-4c50-92cb-855937efa110

Type of procedure: Negotiated with prior publication of a call for competition / competitive with negotiation

The procedure is accelerated: No

2.1.1 *Purpose*

Nature of the contract: Supplies

Main classification (cpv): 24000000 Chemical products

2.1.4 *General information*

Legal basis:

Directive 2014/25/EU

2.1.5 *Terms of procurement*

Terms of submission:

Maximum number of lots for which one tenderer can submit tenders: 4

The tenderer must submit tenders for all lots

Terms of contract:

Maximum number of lots for which contracts can be awarded to one tenderer: 4

5. Lot

5.1 *Lot:* LOT-0001

Title: Sodium Bicarbonate

Description: Lot 1 Sodium Bicarbonate – Single Supplier Once this Framework Agreement is in place and as and when requirements arise, individual contracts will be awarded to the framework member of Lot 1 Sodium Bicarbonate under the terms of the framework and the scope set out in the contract. Annual usage varies depending on fuel quality. The approximate annual usage for the product is estimated at 1,500 metric tonnes but could be less. The product should be provided in bulk, be able to be transported in 20 tonne consignments by bulk tanker, and blown into a silo onsite at Edenderry Power. Successful Framework Members may need to provide a sodium bicarbonate sample to be sent to have an independent chemical analysis carried out on it to determine its suitability for use unless they can provide evidence of an independent chemical analysis carried out in the last five years. The sample / evidence of an independent chemical analysis must be approved before we can progress to award. Random sampling will also be carried out over the duration of the Framework Agreement.

Internal identifier: 1

5.1.1 Purpose

Nature of the contract: Supplies

Main classification (cpv): 24000000 Chemical products

5.1.4 Renewal

Maximum renewals: 6

5.1.6 General information

Reserved participation: Participation is not reserved.

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA)

5.1.9 Selection criteria

Criterion:

Type: Technical and professional ability

5.1.11 Procurement documents

Address of the procurement documents:

5.1.12 Terms of procurement

Terms of submission:

Electronic submission: Required

Address for submission:

Languages in which tenders or requests to participate may be submitted: English

Electronic catalogue: Not allowed

Organisation processing tenders: Bord na Móna PLC

5.1 Lot: LOT-0002

Title: Limestone

Description: Lot 2 Limestone – Multi Supplier Once this Framework Agreement is in place and as and when requirements arise, contracts will be awarded to framework members for lot 2 following mini-tender competitions. The Framework shall be operated in line with the rules set out in the Framework Agreement, and as detailed in the tender documents: Mini-tender competitions will be held between the members of the Framework Agreement. Annual usage varies depending on fuel quality. Recent yearly usage has been between 76t to 2740t. The approximate annual usage for the product is estimated at 1,400 metric tonne. The product should be provided in bulk and be able to be transported in 26.5 metric tonne consignments by bulk tanker and blown into a silo onsite at Edenderry Power. Successful Framework Members may need to provide a limestone sample to be sent to have an independent chemical analysis carried out on it to determine its suitability for use unless they can provide evidence of an independent chemical analysis carried out in the last five years. The sample / evidence of an independent chemical analysis must be approved before we can progress to award. Random sampling will also be carried out over the duration of the Framework Agreement.

5.1 Lot: LOT-0003

Title: Sodium Hydroxide Liquor 30 percent (Caustic Soda) and Hydrochloric Acid 36 percent (HCL)

Description: Lot 3 Sodium Hydroxide Liquor 30 percent (Caustic Soda), and Hydrochloric Acid 36 percent (HCL) – Multi Supplier Once this Framework Agreement is in place and as and when requirements arise, contracts will be awarded to framework members for lot 2 following mini-tender competitions. The Framework shall be operated in line with the rules set out in the Framework Agreement, and as detailed in the tender documents: Mini-tender competitions will be held between the members of the Framework Agreement. Lot 3 Sodium Hydroxide Liquor 30% (Caustic Soda) Annual usage may vary depending on Plant output. The approximate annual usage for the product is estimated at 55 metric tonnes. The product should be provided in bulk, be able to be transported in 22 metric tonne consignments by bulk tanker and blown into a silo onsite at Edenderry Power.

Successful Framework Members may need to provide a sodium hydroxide liquor sample to be sent to have an independent chemical analysis carried out on it to determine its suitability for use unless they can provide evidence of an independent chemical analysis carried out in the last five years. The sample / evidence of an independent chemical analysis must be approved before we can progress to award. Random sampling will also be carried out over the duration of the Framework Agreement. Lot

3 Hydrochloric Acid 36% (HCL) Annual usage may vary depending on Plant output. The approximate annual usage for the product is estimated at 435 metric tonnes. The product should be provided in bulk, be able to be transported in 26.5 metric tonne consignments by bulk tanker and blown into a silo onsite at Edenderry Power. Successful Framework Members may need to provide a hydrochloric acid sample to be sent to have an independent chemical analysis carried out on it to determine its suitability for use unless they can provide evidence of an independent chemical analysis carried out in the last five years. The sample / evidence of an independent chemical analysis must be approved before we can progress to award. Random sampling will also be carried out over the duration of the Framework Agreement.

5.1 Lot: LOT-0004

Title: Urea 40 percent Solution

Description: Lot 4 Urea 40% Solution Once this Framework Agreement is in place and as and when requirements arise, contracts will be awarded to framework members for lot 4 following mini-tender competitions. The Framework shall be operated in line with the rules set out in the Framework Agreement, and as detailed in the tender documents: Mini-tender competitions will be held between the members of the Framework Agreement. Annual usage may vary depending on fuel quality and Plant output. The approximate annual usage for the product is estimated at 450 metric tonnes. The product should be provided in bulk, be able to be transported in 23 metric tonne consignments by bulk tanker and blown into a silo onsite at Edenderry Power. Successful Framework Members may need to provide a Urea 40% Solution sample to be sent to have an independent chemical analysis carried out on it to determine its suitability for use unless they can provide evidence of an independent chemical analysis carried out in the last five years. The sample / evidence of an independent chemical analysis must be approved before we can progress to award. Random sampling will also be carried out over the duration of the Framework Agreement.
